

Keep your Mercedes-Benz in  
showroom condition with StarGard.

Mercedes-Benz  
The best or nothing

# Maintain a showroom finish both inside and out.

Endorsed by Mercedes-Benz Cars UK Ltd, StarGard paint and interior protective products help to maintain the appearance of your Mercedes-Benz, reducing the need for regular cleaning and polishing.

Should you choose to protect your Mercedes-Benz with StarGard, an additional stage will be added to the vehicle preparation process. During this stage, we will ensure that the paintwork and upholstery on your vehicle are treated, to protect them against the hazardous environmental elements to which they are often exposed.

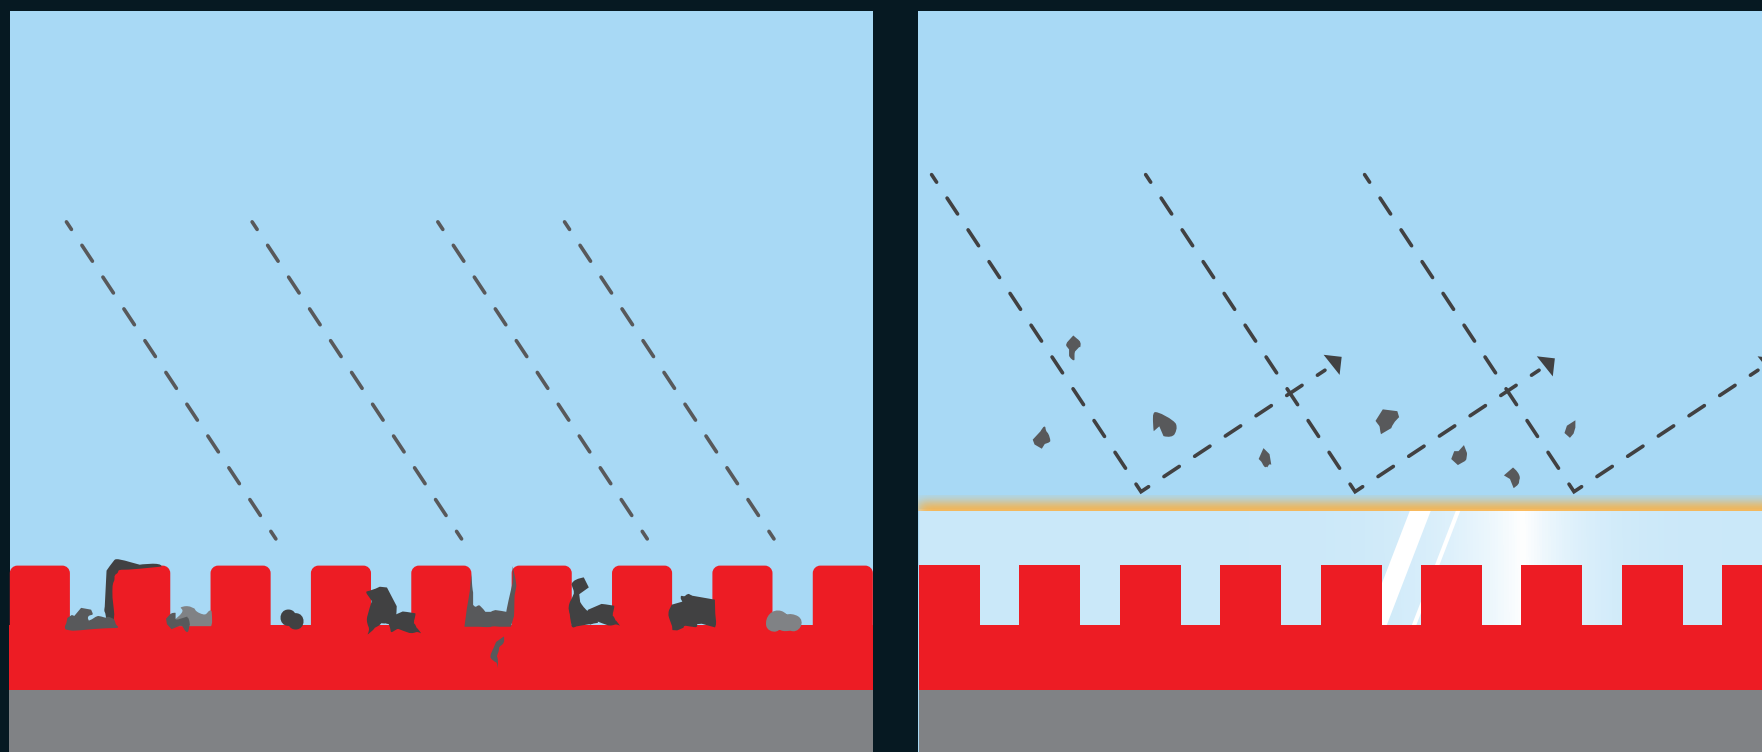

As part of each protection package, you will also be supplied with a StarGard After Care Kit which will help you to keep your Mercedes-Benz in showroom condition.

# Exterior.

All StarGard products have been developed to withstand the harshest environmental and climatic conditions with technologically advanced treatments such as the Paint Sealant.

This tough polymer barrier bonds to the paintwork, leaving a high gloss finish. It seals the surface against harmful acid rain, UV rays and atmospheric pollutants and eliminates the need for wax and polish.

The Paint Sealant is professionally applied by your supplying Retailer, helping to maintain the look and feel of your vehicle.

## Fabric & Carpet Protector.

StarGard Fabric and Carpet Protection coats each fibre of your fabric interior with a resin based formula which won't wash out. This professionally applied product helps to prevent spills of coffee, tea, milk, soft drinks, juices, water and other similar liquids from permanently staining your fabrics and carpets, whilst preserving their texture and appearance. The resin based formula creates an invisible barrier which helps reduce friction between the fibres, prolonging their life.

## Leather Protection.

StarGard Leather Protection helps preserve, care for and protect the new look of your leather seats. This professionally applied product helps to prevent spills of coffee, tea, milk, soft drinks, juices, water and other similar liquids from permanently staining your leather upholstery. The molecular coating creates an invisible barrier which also helps to maintain the supple, natural feel of your leather whilst preventing drying out and cracking.

# After Care products to keep your Mercedes-Benz gleaming.

## After Care: Fabric.

If your vehicle has fabric upholstery and you have had Fabric and Carpet Protection professionally applied, you will receive an after care kit which contains the following products to clean and maintain your paintwork and fabric upholstery:

- 500ml pH neutral shampoo
- 500ml bird and bug neutraliser
- 500ml glass cleaner
- 500ml wheel cleaner
- 500ml tyre and trim dressing
- 500ml fabric cleaner
- 500ml dash and door dressing
- Expanding sponge
- Wheel brush

# After Care products to keep your Mercedes-Benz gleaming.

## After Care: Leather.

If your vehicle has leather upholstery and you have had Leather Protection professionally applied, you will receive the same after care kit as the one supplied for vehicles with fabric upholstery, but in addition, you will receive the following products to clean and maintain your leather upholstery:

- 300ml leather barrier cream
- 300ml leather cleaner concentrate
- 200ml foam dispenser
- 60g ink stick unit for removal of ink stains
- Applicator sponge
