

Supagard®

It's like having a new caravan
or motorhome everyday

BIONIC
TECHNOLOGY

The Professional's Choice

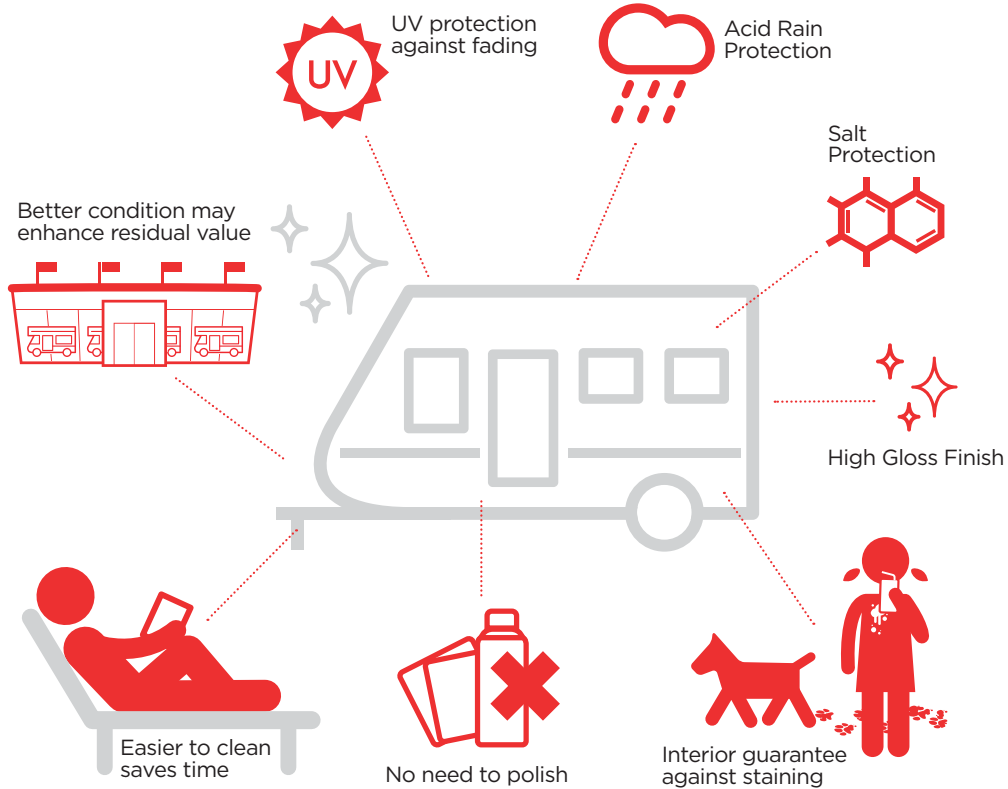

Supagard was formed in 1988 and has grown to become the UK's number one supplier of professionally applied automotive paint and interior protection products, which offer real value. These help keep your caravan or motorhome looking as good as the day you bought it.

Supagard's market leading Bionic Technology has been developed to protect paint, fabric and leather with a 5 year guarantee.

With Supagard protection, your caravan or motorhome retains the same superb look it had when you bought it and this helps to maintain its value when you come to sell it.

CUSTOMER BENEFITS

Exterior Protection

All Supagard products have been developed to withstand the harshest environmental and climatic conditions and our paint sealants are some of the most technologically advanced treatments available. The tough, high gloss barrier bonds to the surface, sealing against harmful UV rays, acid rain and atmospheric pollution.

Supagard is professionally applied by trained technicians and all you have to do is wash the caravan or motorhome - what could be simpler?

Above are the effects of contaminants on paint that wasn't protected.

PROTECTED AGAINST

BIRD LIME

UV RAYS

MUD & DIRT

ROAD SALT

ACID RAIN

UNPROTECTED EXTERIOR

If left unprotected, deterioration begins from day one. Pollution, acid rain and UV rays will begin to oxidise the paint.

UNPROTECTED AFTER 1 YEAR

The paint has started to oxidise and the grime in the low points can only be cleaned with a cutting polish which removes a layer of paint.

PROTECTED WITH SUPAGARD

The paint, once treated, is protected by a durable barrier. This helps maintain the high gloss shine and protects against contaminants.

Interior Protection

Our technicians coat each fibre of the fabric seats and carpets with a resin based formula which eases the removal of dirt and spills. This prevents staining while preserving the texture and appearance of the material.

PROTECTED AGAINST

DRINK SPILLS

DIRT & GRIME

MUCKY PETS

UNPROTECTED FABRIC

Liquid and dirt is free to penetrate the fibres of untreated seats.

STAINED FABRIC

These fibres have been stained by a coffee spill. Often, stains are rubbed while trying to remove them, making them worse and ingrained to the fabric.

PROTECTED FABRIC

Liquids and dirt can't penetrate the fabric once coated with fabric protector. Therefore it may pass between or rest above fibres but won't affect them.

Peace of mind

Supagard professionally applied paint and interior protection products are guaranteed, subject to guarantee conditions.
