

Supagard[®]

IT'S LIKE HAVING A NEW
CAR EVERYDAY

Paint Protection

All Supagard products have been developed to withstand the harshest environmental climatic conditions. Our paint sealants are some of the most technologically advanced treatments available. The tough, high gloss barrier bonds to the paintwork, sealing the surface against harmful UV rays, acid rain, and atmospheric pollution.

Supagard is professionally applied by trained technicians. This high gloss coating will be locked in to your paintwork and all you have to do is wash the car. It's that simple. Unprotected paint can make the paintwork tired and less desirable.

PROTECTED AGAINST

BIRD LIME

UV RAYS

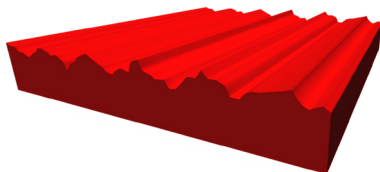

ACID RAIN

MUD & DIRT

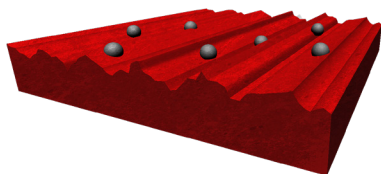

ROAD SALT

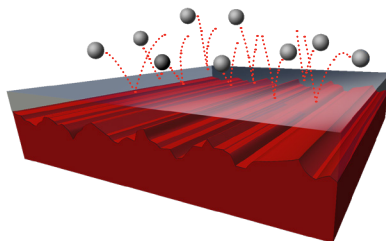

UNPROTECTED CAR PAINT

If left unprotected, deterioration begins from day one. Pollution, acid rain and UV rays will begin to oxidise the paint.

UNPROTECTED AFTER 1 YEAR

The paint has started to oxidise and the grime in the low points can only be cleaned with a cutting polish which removes a layer of paint.

PROTECTED WITH SUPAGARD

The paint, once treated, is protected by a durable barrier. This helps maintain the high gloss shine and protects against contaminants.

Fabric Protection

Our technicians coat each fibre of the fabric seats and carpets with a resin based formula which eases the removal of dirt and spills. This prevents staining while preserving the texture and appearance of the material.

Supagard is professionally applied by trained technicians. This invisible barrier creates a stain resistant coating that helps prevent spoiling the new look and feel of your cars seats and carpets. Unprotected seats can lead to permanent damage by those little accidents.

PROTECTED AGAINST

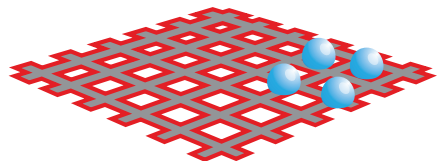

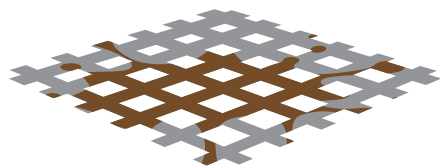

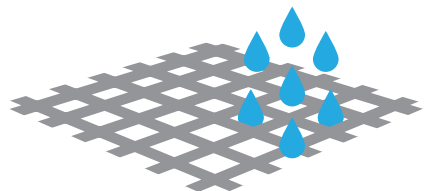

DRINKS SPILLS

DIRT & GRIME

MUCKY PETS

UNPROTECTED FABRIC

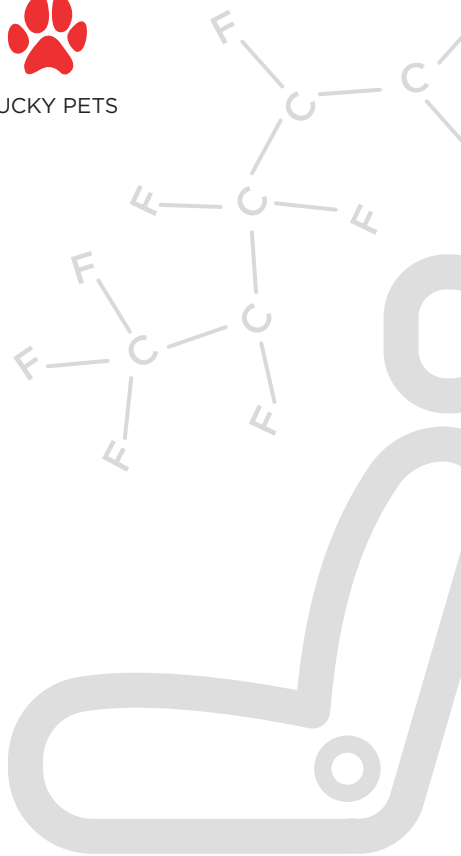

Liquid and dirt is free to penetrate the fibres of untreated seats.

STAINED FABRIC

These fibres have been stained by a coffee spill. Often, stains are rubbed while trying to remove them, making them worse and ingrained to the fabric.

PROTECTED FABRIC

Liquids and dirt can't penetrate the fabric once coated with Supagard's Bionic Fabric Protector. Therefore it may pass between or rest above fibres but won't affect them.

Leather Protection

(Optional Extra)

For vehicles with a leather interior, Supagard's Bionic Leather Preserver formula seals and protects. Treat the surface to guard against oil and water based staining and dye transfer from clothing, without damaging the leather's supple and lustrous feel.

PROTECTED AGAINST

DRINK SPILLS

DENIM DYE

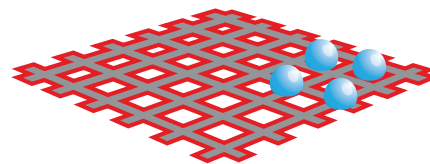

MUD & DIRT

MUCKY PETS

PROTECTED LEATHER

Liquids and dirt can't penetrate the leather once coated with Supagard's Bionic Leather Preserver.

Aftercare

Our comprehensive Supagard aftercare range has been specifically designed to give you all the car cleaning and car detailing products you'll require to keep your car in pristine condition. You can wash and clean your car as often as required, safe in the knowledge that Supagard aftercare products are fully compatible with our paint and interior protection systems.

Peace of Mind

Supagard professionally applied paint and interior protection products are guaranteed, subject to guarantee conditions.
