It's like having a new
car everyday

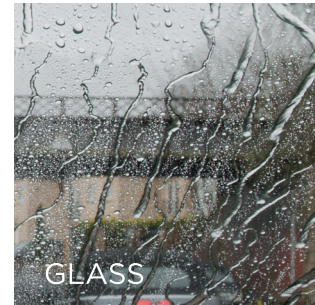

TECHNOLOGY BY[®]
Supagard

The Professional's Choice

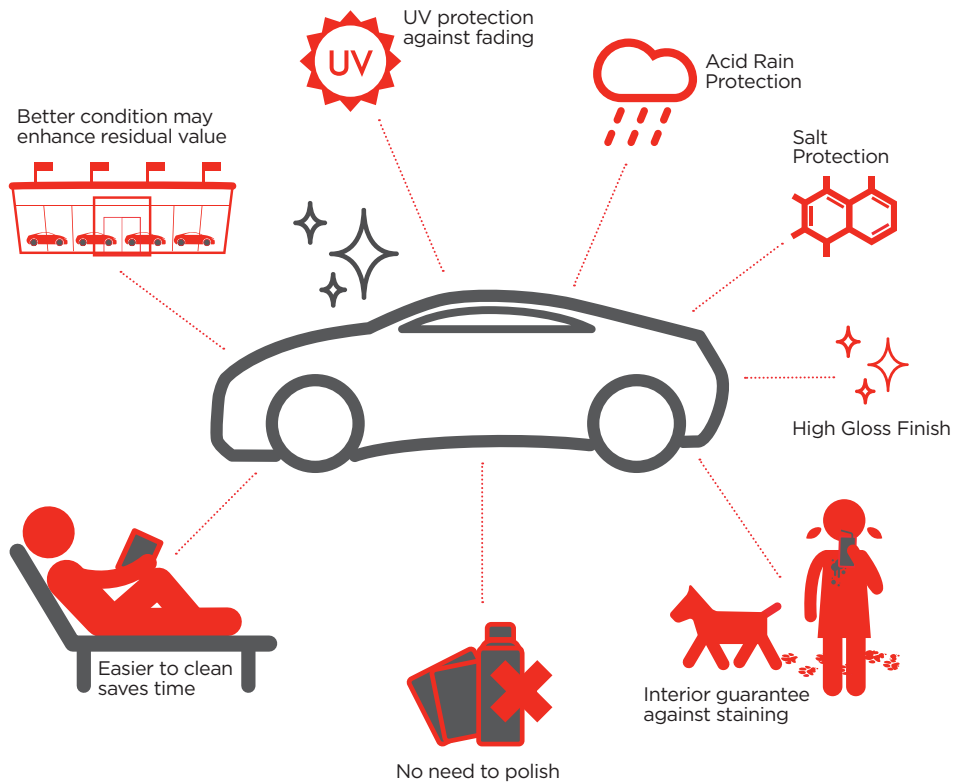

Supagard was formed in 1988 and has grown to become the UK's number one supplier of professionally applied automotive paint and interior protection products. These offer real value to both new and used car customers, keeping your car looking as good as the day you bought it.

Supagard's market leading Bionic Technology has been developed to protect paint, fabric and leather with a lifetime guarantee.

With Supagard protection, your car retains the same superb look it had when you bought it and this helps to maintain its value when you come to sell it.

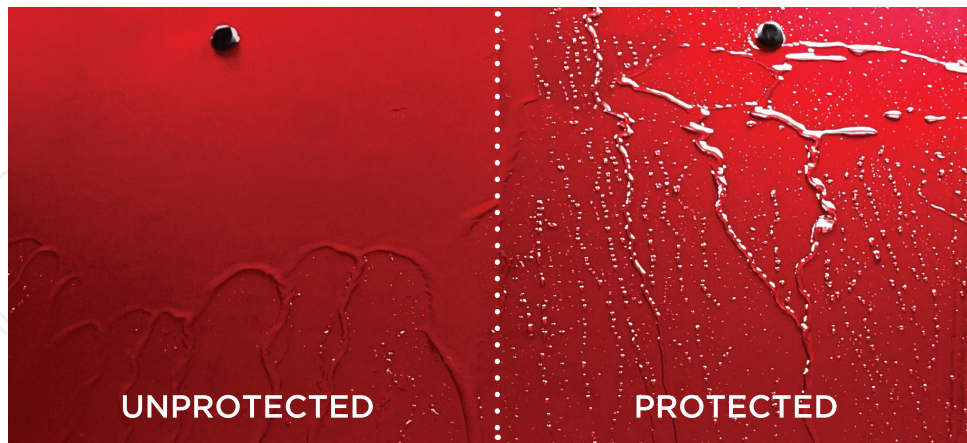

CUSTOMER BENEFITS

Paint Protection

All Supagard products have been developed to withstand the harshest environmental and climatic conditions and our paint sealants are some of the most technologically advanced treatments available. The tough, high gloss barrier bonds to the paintwork, seals the surface against harmful UV rays, acid rain and atmospheric pollution.

Supagard is professionally applied by trained technicians and all you have to do is wash the car - what could be simpler?

Above are the effects of contaminants on paint that wasn't protected.

PROTECTED AGAINST

BIRD LIME

UV RAYS

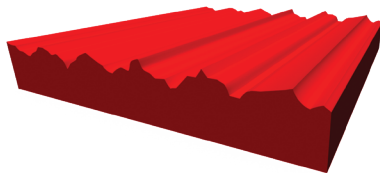

ACID RAIN

MUD & DIRT

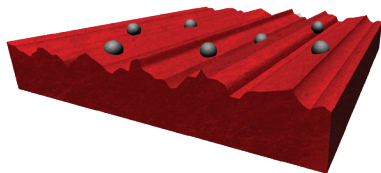

ROAD SALT

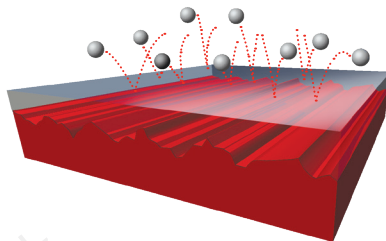

UNPROTECTED CAR PAINT

If left unprotected, deterioration begins from day one. Pollution, acid rain and UV rays will begin to oxidise the paint.

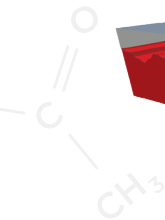

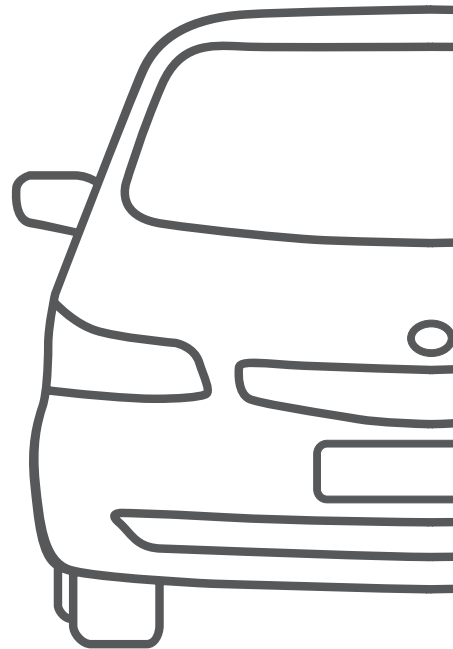

UNPROTECTED AFTER 1 YEAR

The paint has started to oxidise and the grime in the low points can only be cleaned with a cutting polish which removes a layer of paint.

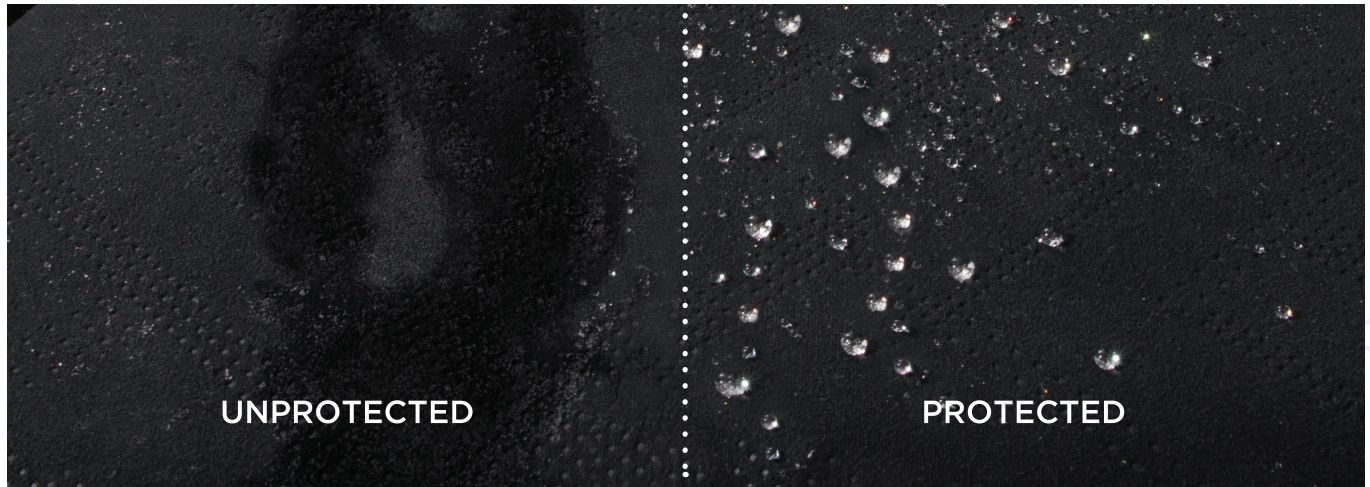

PROTECTED WITH SUPAGARD

The paint, once treated, is protected by a durable barrier. This helps maintain the high gloss shine and protects against contaminants.

Fabric Protection

Our technicians coat each fibre of the fabric seats and carpets with a resin based formula which eases the removal of dirt and spills. This prevents staining while preserving the texture and appearance of the material.

PROTECTED AGAINST

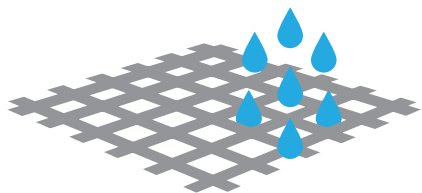

DRINKS SPILLS

DIRT & GRIME

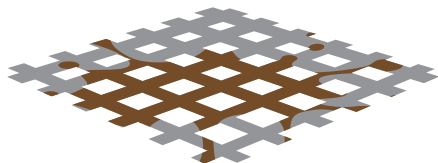

MUCKY PETS

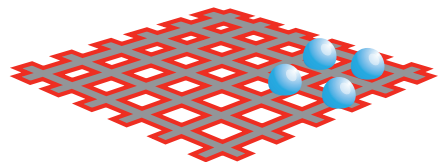

UNPROTECTED FABRIC

Liquid and dirt is free to penetrate the fibres of untreated seats.

STAINED FABRIC

These fibres have been stained by a coffee spill. Often, stains are rubbed while trying to remove them, making them worse and ingrained to the fabric.

PROTECTED FABRIC

Liquids and dirt can't penetrate the fabric once coated with Supagard's Bionic Fabric Protector. Therefore it may pass between or rest above fibres but won't affect them.

Leather Protection

(Optional Extra)

For vehicles with a leather interior, Supagard's Bionic Leather Preserver formula seals and protects the surface against oil and water based staining and dye transfer from clothing, without damaging the leather's supple and lustrous feel.

PROTECTED AGAINST

DRINK SPILLS

DENIM DYE

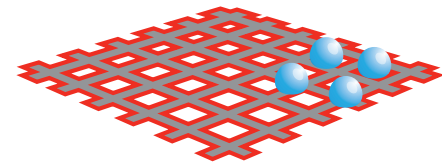

MUD & DIRT

MUCKY PETS

PROTECTED LEATHER

Liquids and dirt can't penetrate the leather once coated with Supagard's Bionic Leather Preserver.

Glass Treatment

(Optional Extra)

Supagard's SupaVision utilises new glass bond technology to provide an optically clear, non-stick coating for unbeatable visibility in all conditions for up to 6 months. When professionally applied to your vehicle's windscreen or side and rear windows, it will dramatically improve both day and night visibility while driving in rain, sleet or snow.

PROTECTED AGAINST

IMPROVED
VISIBILITY

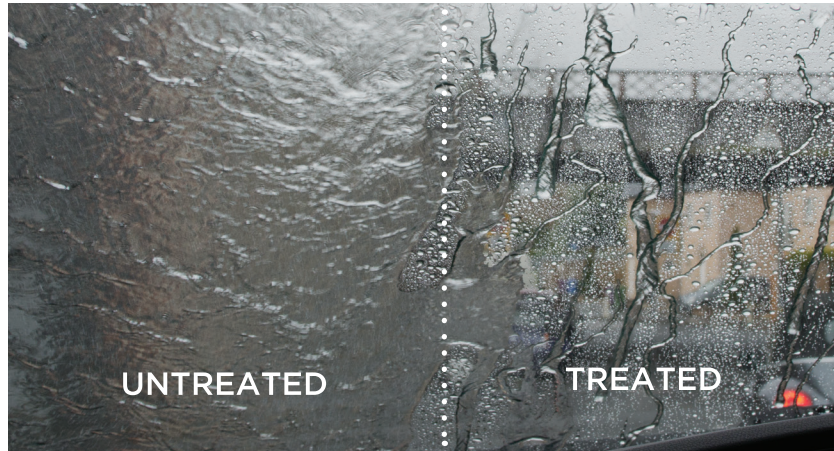

QUICK FROST
REMOVAL

HYDROPHOBIC
PROTECTION

BIRD & BUG
PROTECTION

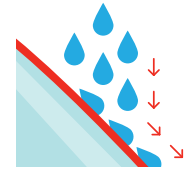

TREATED GLASS

SupaVision is a protective repellent barrier that lasts for months, - rain beads up and rolls off, the glass is easier to clean and keeps clean for longer.
