KEEPING YOUR VEHICLE IN SHOWROOM CONDITION

THE PROFESSIONAL'S CHOICE

DS Protect exterior and interior protection products offer real value to both new and used car customers, keeping your car looking as good as the day you bought it and ensuring that your DS's appearance will always match its performance.

All DS Protect professionally applied products are guaranteed for the lifetime of ownership of your vehicle subject to Guarantee Conditions.

BENEFITS OF DS PROTECT

EXTERIOR

All of our products have been developed to withstand the harshest environmental and climatic conditions and our Paint Sealants are some of the most technologically advanced treatments available. The hydrophobic coating bonds to the paintwork, leaving a high gloss finish. It seals the surface against harmful acid rain and atmospheric pollutants and eliminates the need to wax and polish. The paint sealant is professionally applied by trained technicians and all you have to do is wash the car. What could be simpler?

INTERIOR

When it comes to the interior, there's no need to cry over spilt milk, or chocolate, or mud. Depending on your interior finish, our technicians coat the seats and carpets with InteriorGard and/or Leather Preserver*. These advanced products ease the removal of dirt and spills and prevent staining while preserving the texture and appearance of the interior. Dirt and spills can be vacuumed or wiped off with a gentle cleaning solution. These protection products are guaranteed to maintain your car's appearance - your car retains the same superb look it had when you bought it and this helps to maintain its value when you come to sell it.

*Leather Protection is an optional extra - Ask for more details.

EXTERIOR PROTECTION

Our advanced paint sealant has been professionally applied to vehicles throughout the UK for many years and protects your vehicle's paintwork from the harsh environment that surrounds it – acid rain, Ultra Violet rays, atmospheric pollutants, road salt and many other causes of fading and damage, plus protection from tree sap and bird lime for up to 7 days*.

- Your car's paintwork is treated with a highly durable hydrophobic coating that bonds to the paint and forms a tough protective barrier with a high gloss finish.
- This keeps your car cleaner for longer and protects your paint from the worst that the elements can do - no need to wax or polish, all you have to do is wash the car.
- Once applied, it gives guaranteed protection for new and used cars.

To help keep your car in pristine condition, certain packs include a selection of aftercare products.

*Ceramic paint sealant only.

FABRIC PROTECTION

InteriorGard coats each fibre of the fabric with a resin based formula which won't wash out.

- This professionally applied product prevents spills of coffee, tea, milk, soft drinks, juices, water and other similar liquids from permanently staining your fabrics and carpets.
- The dirt can be either vacuumed or wiped off with a gentle cleaning solution.
- The invisible barrier helps reduce friction between the fibres, prolonging their life and allowing the fabrics and carpets to retain their natural texture and appearance.
- Once applied, it's there to stay - and that's guaranteed.

LEATHER PROTECTION

*Optional Extra

Nothing complements a car more than quality leather upholstery and our new optional Leather Preserver product prevents surface soiling and makes the clean up of spills much quicker and easier. The professionally applied, cutting edge formula is designed to protect against both oil and water based stains and will help to keep your leather interior clean and protected. It spreads easily over the surface of the leather and into the pores, leaving a supple, natural feeling.

- Guaranteed protection for new and used cars – a UK first.
- Prevents oil and water based surface soiling.
- Spills clean up quickly and easily.
- Dye transfer from denim and other clothing simply cleans off.
- Leather stays looking clean, supple and natural.

*Leather Protection is an optional extra - Please ask your Retailer for more details.

GLASS TREATMENT

*Optional Extra

Volvo Car Protect glass treatment utilises new glass bond technology to provide an optically clear, non-stick coating for unbeatable visibility in all conditions for up to 6 months.

When professionally applied to your vehicle's windscreen, side and rear windows, it will dramatically improve both day and night visibility while driving in rain, sleet or snow.*

*Volvo Glass Treatment is an optional extra - Please ask your Retailer for more details.
