

StarGard Ceramic

Welcome to the definition of car care.

Introduction	03
Paint Protection	04
Leather Protection	06
Fabric Protection	08
Customer After Care	10

A showroom finish, inside and out.

StarGard Ceramic paint protection and interior protective products are guaranteed to maintain the appearance of your Mercedes-Benz for your lifetime of ownership.*

With StarGard Ceramic, the workshop will professionally apply StarGard protection products onto your car, to protect it against the environmental elements to which they are often exposed.

As part of each protection package, you will also be supplied with a StarGard After Care Kit which will help you to keep your Mercedes-Benz in showroom condition.

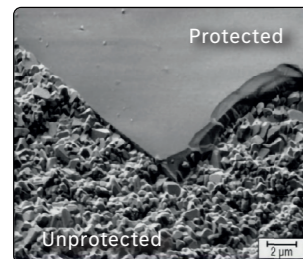

*Terms and conditions apply.
Please speak to your workshop for more information.

Paint Protection

The StarGard Ceramic product has been developed to withstand the harshest environmental and climatic conditions. The StarGard paint sealant is one of the most technologically advanced treatments available on the market.

This tough ceramic barrier bonds to the paintwork. It seals the surface of the paintwork and helps protect against environmental conditions such as UV rays, atmospheric pollutants, for the lifetime of ownership.

StarGard paint sealant is professionally applied, helping to maintain the look and value of your vehicle.

The image on the left is our ceramic protection under a microscope as it forms this impenetrable barrier.

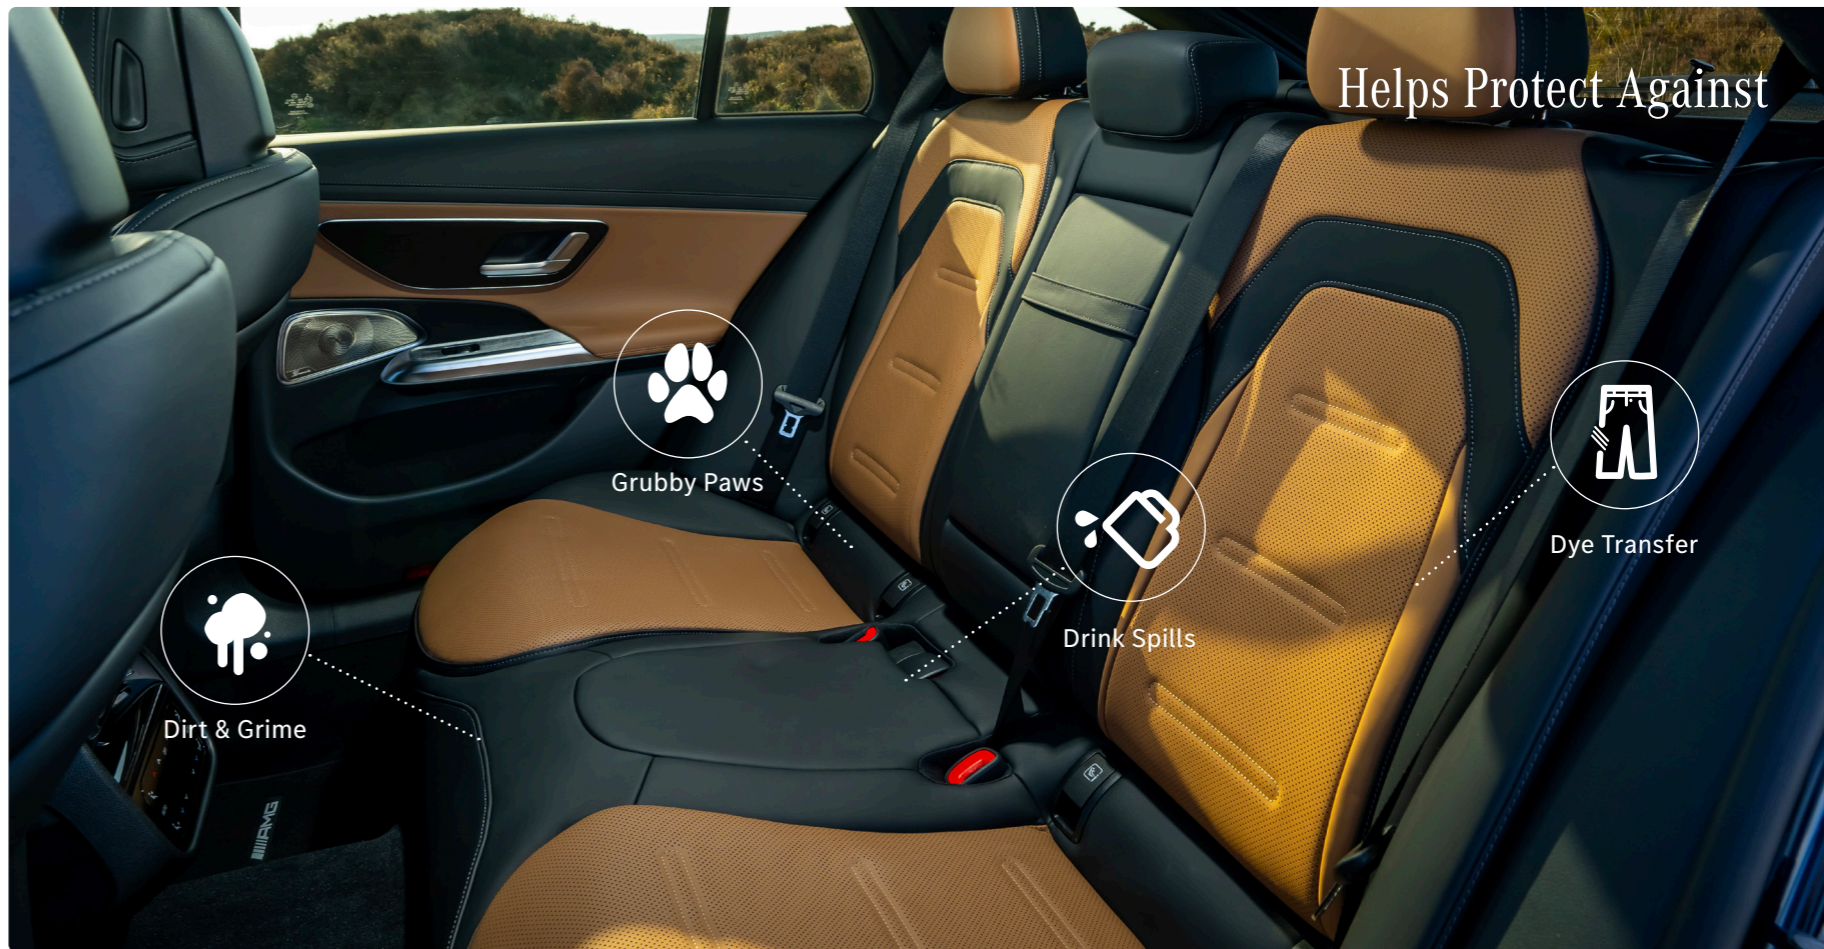

Leather Protection

StarGard leather seat protector is a specially formulated product designed to coat and safeguard leather upholstery from stains and general aging.

This barrier helps repel liquids, dirt, and oils from skin or food, preventing them from soaking into the leather and causing permanent damage.

By preserving the leather's appearance, it helps maintain the vehicle's resale value and enhances the interior's overall look and feel. It also simplifies cleaning by preventing contaminants from bonding to the leather, making it easier to wipe away spills or dirt.

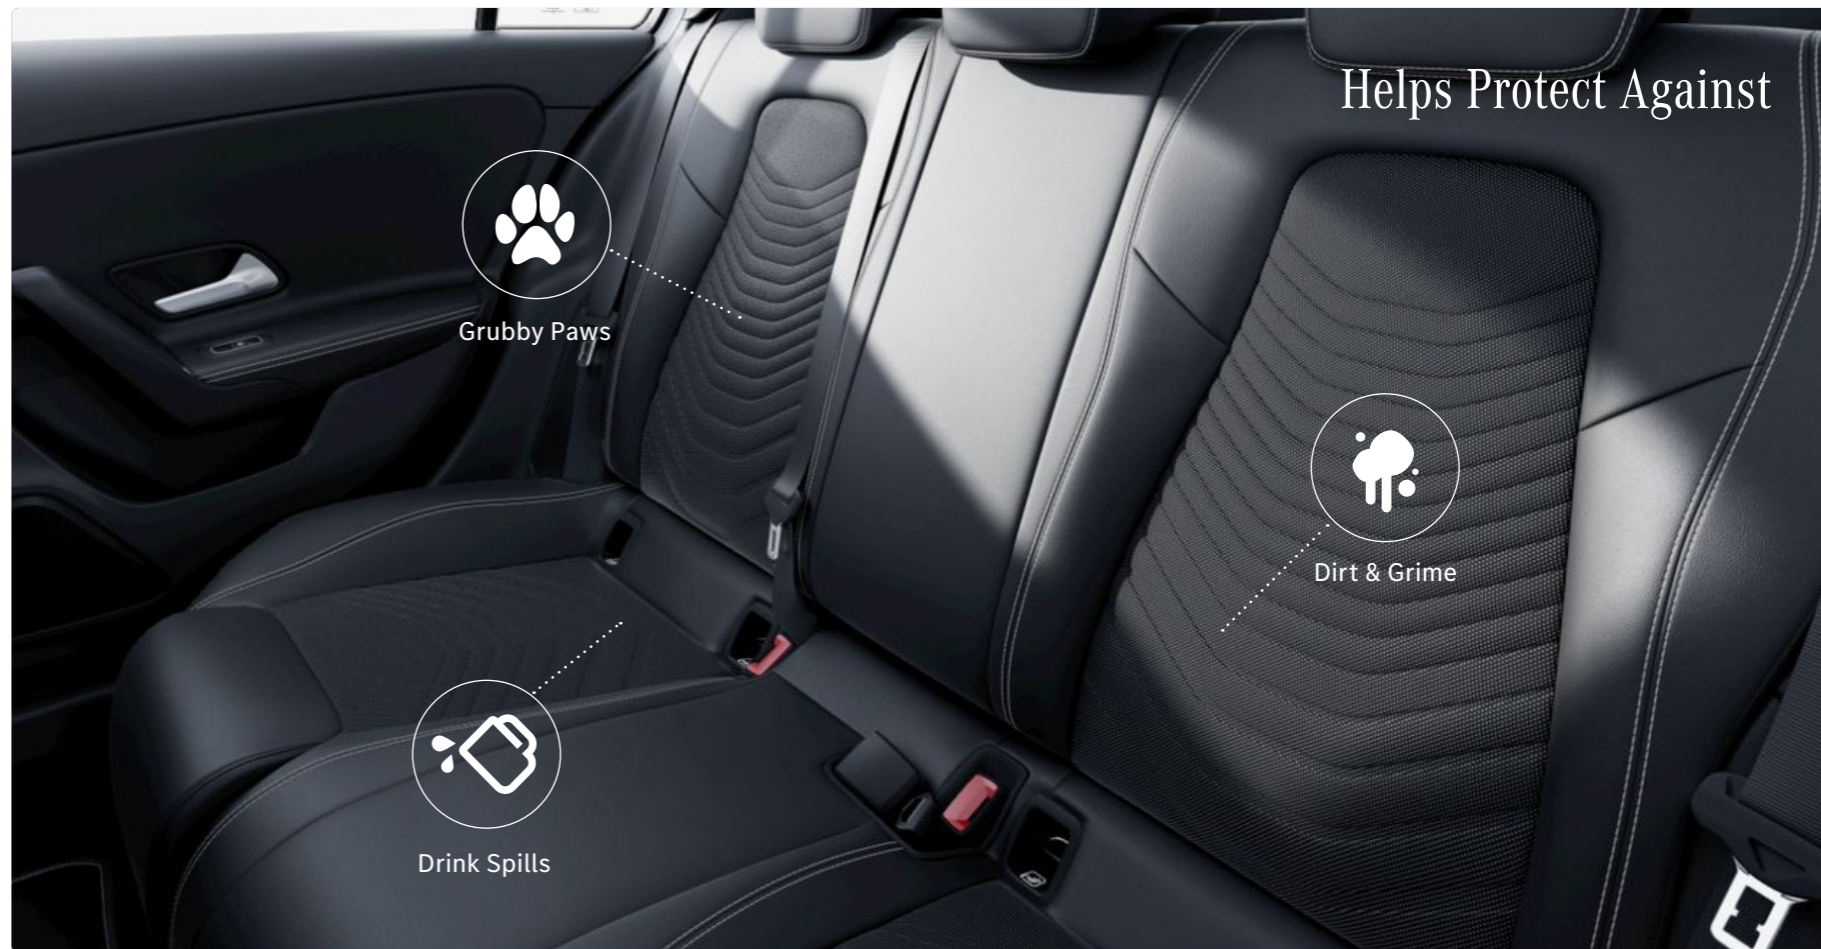

Fabric Protection

StarGard Fabric and Carpet Protection coats each fibre of your fabric interior with a resin based formula which won't wash out.

This professionally applied product is guaranteed for your lifetime of ownership to prevent spills of coffee, tea, milk, soft drinks, juices, water and other similar liquids from permanently staining your fabrics and carpets, whilst preserving their texture and appearance.

The resin based formula creates an invisible barrier which helps reduce friction between the fibres, prolonging their life.

After Care

The StarGard After Care range has been specifically designed to give you all the car cleaning and car detailing products you'll require to keep your car in pristine condition. You can wash and clean your car as often as required, safe in the knowledge that the products are fully compatible with our paint and interior protection systems.

Quality Products

StarGard customer car care products have high-quality formulations that provide long-lasting protection and shine.
