

Supagard[®]

The ultimate protection for
your leisure vehicle.

5 YEAR GUARANTEE
WITH OUR BIONIC TECHNOLOGY

THE PROFESSIONAL'S CHOICE

Supagard was formed in 1988 and has grown to become the UK's number one supplier of professionally applied automotive Paint and Interior protection products. These help keep your caravan / motorhome looking as good as the day you bought it.

BENEFITS

Our market leading Bionic Technology:

- Protects the paint - Maintains its appearance and shine.
- Protects the fabrics and carpets - Prevents unsightly stains from dirt and spills.
- Protects leather upholstery - Protects against dirt, stains and dye transfer from jeans and clothing.
- Helps to maintain re-sale value.
- Simple maintenance.
- 5 year complete guarantee.

REVIEWS

"Having purchased a new caravan over a year ago Supagard was our choice. What a wonderful product. Our caravan just looks as though it has come straight from the showroom. Friends who visited were so impressed with the superb shine they have purchased a similar one but insisted upon Supagard. All we have done with our Swift is to use your shampoo on the protected finish we paid extra for. We can recommend your whole range of products to anyone knowing they are bound to be just as impressed." - **Mr Mosley** (Supagard Customer)

EXTERIOR PROTECTION

Applied by trained technicians, this unique coating bonds to the paintwork leaving a high gloss finish that will remain for many years without the need to polish. Just wash and go!

What an easy way to keep your Caravan or Motorhome in pristine condition.

BIRD & BUGS

UV RAYS

MUD & DIRT

ROAD SALT

ACID RAIN

TREE SAP

ALGAE

DETERGENTS

INTERIOR PROTECTION

InteriorGard coats each fibre of the fabric with a resin based formula which won't wash out.

- This professionally applied product prevents spills of coffee, tea, milk, soft drinks, juices, water and other similar liquids from permanently staining your fabrics and carpets.
- The dirt can be either vacuumed or wiped off with a gentle cleaning solution.
- The invisible barrier helps reduce friction between the fibres, prolonging their life and allowing the fabrics and carpets to retain their natural texture and appearance.
- Once applied, it's there to stay - and that's guaranteed.

PROTECTED AGAINST

DRINK SPILLS

DIRT & GRIME

MUCKY PETS

LITTLE RASCALS
